

Liberty Development and Production Plan

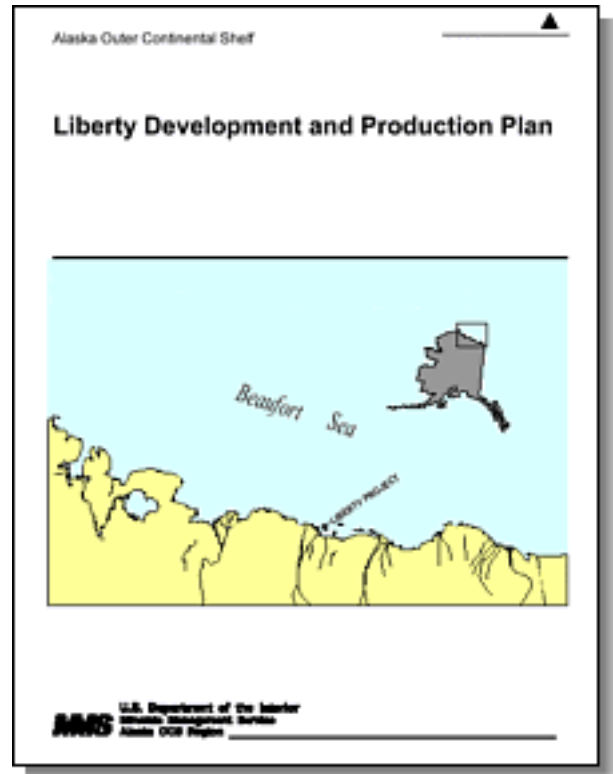

Final Environmental Impact Statement

OCS EIS/EA MMS 2002-0019

This final Environmental Impact Statement (EIS) covers the proposed Beaufort Sea Oil and Gas Development/Liberty Development and Production Plan. This document includes the purpose and background of the proposed action, alternatives, description of the affected environment, and the predicted environmental effects of the proposed action and the alternatives.

The final EIS consists of four volumes and an Executive Summary. It is available in both printed and electronic [PDF](#) versions.

For more information on this report contact:
Mr. Fred King or Mr. Richard Roberts at 1-800-764-2627
or via email, akeis@mms.gov

A PDF version of the draft EIS can be viewed from this web page. Take a few moments to read our [Navigation Tips](#) before you begin. It will save you some time and make the experience more enjoyable.
